SKETCHES OF LITTLE OLD NEW YORK BY O. O. McINTYRE

Telegram Bureau: Rooms 121-125 Hotel Majestic, West Seventy-second Street.

NEW YORK, May 16.—A frail, studious and serious looking young man is causing a hub-bub in Wall street. He has gone down there to do a bit of muck-raking on his own hook—bearding the lion in its den, as it were. His name is H. M. Mann and for some time he was the financial editor of a New York newspaper.

He began to see certain things that didn't strike him as being exactly on the square with the investor and he said so several times with the result that he found himself closeted in several perspiring conferences with some big brokers. They threatened many things but he tenaciously clung to his purpose and just now he has opened up a suite of offices at 65 Broadway—in the heart of the Money Belt—and is continuing his bombardment.

He is sending broadcast news to investors informing them what to steer away from and how to take the sting out of their stock purchases. He believes the Bull and Bears in most instances are on the square but a lot of times there are many "Goats"—his term for the gullible investor. "Wall street," he says, "is not so bad as painted. But there are certain things that need correcting and no one seems to have the nerve to tackle it. I've been down here a number of years and I'm spending a little money to force a lot of them to behave. In the end they will thank me."

Smash! Another blow for the tipping evil. A new cafe has opened on upper Broadway which puts a ban on tipping in plain words. This is how the sign reads:

NO GRATUITIES.
Patrons are requested not to give tips to employees. They cannot accept them. A liberal wage scale assures you of their best service. If, contrary to this request, money be left on the table, it will be given to charitable institutions.

And contrary to precedent the new restaurant is doing a mighty fine business. Several times waiters have politely refused tips. If they accept them they are immediately discharged.

The sum of \$7.31 a week will buy food enough for a family of five in New York City. Experiments carried on during the last two years by the social service department of the Beth Israel hospital have furnished the city with this conclusion.

Sample menus and lists of supplies are offered—all based on the carefully worked out theory that father needs about 3,000 calories of heat energy every day, mother can manage with 2,500 while the kiddies will thrive on from 1,200 to 1,600 each.

It would seem that New Yorkers are to be watered and fed like a plant. Very few people will want to provide or cater on the caloric basis. For as Renold Wolf remarks he wouldn't know a caloric if one bit him on the ankle.

Alas! The poor actor has no place to go. "Clear the curbs" is the new po-

Hee order to Broadway policemen and Thespians are being turned out of their summer offices in droves. Its a rough life for an actor at best but to have to be chased up and down the Gay White Way with a night stick is no nice way to treat an artist.

Ex-Governor Glenn, of North Carolina, dropped in on New York the other day and delivered the prediction that New York would be dry in ten years. He says that New York state should model after Kansas. Of course the newspapers treated the whole thing as a joke but there are many who believe him.

A FEARLESS PHYSICIAN

Such a physician recently remarked:—"The wonderful power of Lydia E. Pinkham's Vegetable Compound over diseases of women is not because it is a stimulant, not because it is a palliative, but simply because it contains the very elements needed to tone up the female system and strengthen the depleted organism." Of course that is so, otherwise it could not succeed as it has.—Advertisement.

The Coming Baby!!

Nothing else can so completely endear us to the present and the future as the expected arrival of a baby. But in the meantime the comfort of the mother is of vast importance. There is a splendid external remedy known as "Mother's Friend" which exerts a wonderful influence upon the expanding muscles. They become more pliant, stretch without pain, make the period of pleasant anticipation instead of apprehension. In a series of splendid letters from all over the country mothers tell of the great help "Mother's Friend" was to them. Even grandmothers tell the wonderful story to their own daughters about to enter the state of motherhood. Get a bottle of "Mother's Friend" today of your nearest druggist. It should be remembered that this splendid remedy is for external use only. Great care should always be exercised in using medicine for internal use. And it may be safely said that by the daily application of "Mother's Friend" there will be such ease and comfort as to rid the mind of the notion that internal medicine is necessary during this momentous period of expectancy. "Mother's Friend" is recommended by a host of women.

Use this splendid help with your own hand guided by your own mind. For a free book of interest and importance to all mothers write to Bradfield Torquator Co., 709 Lenox Bldg., Atlanta, Ga. It relates the personal experiences of many happy mothers. It tells many things that all women should be familiar with; it is at once a guide and an inspiration. Write for this book.
